

# workshop: visualizing your research

VISUALPOWER050

Are you looking for new ways to disseminate your research? Or new ideas to present mathematics to the general public? Would you like to have new ways to tell your story in a concise and appealing way?

The Dutch Association of Women in Mathematics (EWM-NL) organizes an interactive workshop on visualizing your research! Ellen van Heijst from visual power 050 will teach you how you can tell a story effectively and concisely with drawing. During the workshop you will learn the basics of illustration and draw along, gaining confidence on your skills in the process. Because no one has to be a drawing prodigy!

**The workshop will be held on March 22, 2024, 14.00-17.00 at CWI (Science Park 123, 1098 XG Amsterdam), room L017.**

You can register for participation here <https://forms.gle/1HgZHSZ7omp3QhR96>  
The number of participants is limited!
